

**JEFFERSON COUNTY COMMISSION ENVIRONMENTAL SERVICES DEPARTMENT
2026 AS NEEDED ROADWAY AND UTILITY CONFLICT ENGINEERING SERVICES
PUBLIC NOTICE**

The Jefferson County Environmental Services Department (ESD) will utilize the Qualifications-Based Selection (QBS) Process to select professional services consultants to perform engineering services relative to **ENGINEERING AND CONSTRUCTION MANAGEMENT for THE RELOCATION OF SEWER LINES AND ASSOCIATED STRUCTURES IN CONFLICT WITH PROPOSED ROADWAY AND PUBLIC WORKS PROJECTS IN JEFFERSON COUNTY**. The consultants must have participated in the Consultant Eligibility Screening Process and possess eligibility status in the “Small Scale Wastewater Facilities and Line Work – Design Engineering and Construction Management” project category. All consultants possessing eligibility status in the “Small Scale Wastewater Facilities and Line Work – Design Engineering and Construction Management” project category will be sent a Request for Qualifications Statement. Interested consultants should then submit their Qualifications Statement to the ESD to compete for the project.

PROJECT DESCRIPTION:

Engineering services provided under this contract are as needed to resolve conflicts between existing sanitary sewer facilities and the construction of proposed roadway and public works projects in Jefferson County.

**CONSULTANTS’ SCOPE OF WORK:
ENGINEERING**

The scope of work will include preliminary studies, conflict evaluation, field surveys, developing engineering design, preparation of construction cost estimates, preparation of detailed plans and specifications, and preparation of contract documents, required to relocate or modify existing sanitary sewer facilities that conflict with the construction of proposed public works projects. The consultants will attend pre-bid and/or pre-construction conferences and assist in opening and evaluating bids. The consultant will prepare all agreements and/or permits required by the Alabama Department of Transportation (ALDOT), Municipalities, and/or the County. The consultant will prepare accurate ALDOT-required reimbursement documents for invoiced reimbursable work.

CONSTRUCTION MANAGEMENT

The Consultant will be responsible for full-time on-site Construction Management Services for the sewer replacement construction project to determine that the work is proceeding per the contract documents. The consultant shall prepare and submit to Jefferson County Environmental Services, field-surveyed “As-Constructed” record drawings of the completed project.

More detailed information, including all necessary forms to be submitted to participate in the Consultant Eligibility Screening Processes, can be found on the Jefferson County Environmental Services website, www.jccal.org, under Departments>Environmental Services>Bids/Contracts>Qualifications Based Info. Prospective consultants may also contact Cynthia Nichols (205-325-5496) at the Jefferson County ESD to arrange receipt of this information by other methods.

Interested consultants who have not received eligibility status should submit a Consultant Eligibility Screening Application to the ESD no later than 5:00 p.m. on **Friday, August 18, 2025**, to become eligible to compete for this project.
